CASEMENT WINDOWS - STANDARD SIZE RANGE

FEATURES

Casement windows take advantage of cross breezes and open a room to the outdoors.

Casement windows are manufactured to the highest quality standards and are appropriate for the finest applications.

Some of the high quality features built into every casement window includes:

- Durable easy-clean aluminium profiles
- Fully gasketed frame joints for superior performance
- High quality operator with cam locks
- Stylish modern sash profiles
- Standard and special colours available

NOTE:
 All windows comply with Australian Standards AS 2047.

Identification Coding:
 the first two numbers denote the height and the second two numbers denote the width. Both are rounded off to the nearest 100mm.
